aced on Two Sides by

Probable Attitude of Helles in
Event Their Balkan Armies Meet
With Serbs; Russians Repulsed.**

LONDON, Nov. 15.—The exact situation in Central Macedonia is uncertain. Dispatches from the Near East are conflicting and doubt as to the time of events to which they refer. It is clear, however, that the Bulgarians have been reinforced and have begun a new offensive.

The operations in Central Macedonia, according to Rome accounts, present a most powerful menace to the armies of Serbia and her allies, which are operating from Tetovo, through Delorpe to the Southeastern Serbian frontier. Telegrams received almost simultaneously from Greece announce that Tetovo is in the hands of both the Serbians and Bulgarians, but the preponderance of evidence points to Bulgarian occupation of this front.

The Bulgarians are making desperate efforts to force their way through Kotelnik Pass in the direction of Pristina. They are also attempting to advance from Tetovo to Delorpe and Monastir and by forcing Babuna Pass to reach Delorpe from the other side. These operations are said to have placed Monastir again in danger.

It is at present a problem whether the newly arrived French and British forces are large enough to meet this Bulgarian onslaught, which apparently has begun with extraordinary vigor. What Greece will do in event the Allied troops are forced back over the Greek border is still a matter of speculation. A message from Greece says the government will extend to the Serbians the same privileges as those accorded to the French and British in case of their encroachment on Greek territory, but in view of the fact that no definite announcement has been made as to what these privileges will be further than the original statement of Premier Skouloudis that the Allied troops would be permitted to reach the sea unmolested, the intentions of Greece remain obscure.

On the Gallipoli front the Russians, while admitting they have yielded some ground in the neighborhood of the Suez forts, do not concede they have been forced back across the river as is claimed in the German official communication of yesterday.

Further details of this fighting will be necessary to determine whether the Russians have lost the town of Chortarsk and whether Russian control of the Kovel-Barny railway is thereby endangered.

**HUNGARIANS COMPEL
FRENCH TO RETREAT**
SALONIKI via London, Nov. 15.—After heavy fighting with the reinforced Bulgarians in southern Serbia, the French were compelled to retreat two points in the vicinity of Gradiska, 12 miles north of the Greek border. A Hungarian attack along the Cerna river was repulsed with heavy losses to the attackers.

The battle of the Cerna was waged along the left bank of the river. Two or three Hungarian divisions were engaged and a desperate attempt was made to breach the French center. The engagement was in progress with furious intensity for 35 hours, after which the Hungarians were beaten back along this entire front.

The situation in Macedonia is deteriorating. Large reinforcements have been brought in by the Hungarians who are making renewed efforts to force Babuna Pass. The Serbians are still holding out there but this movement threatens Delorpe and Monastir. Many inhabitants of Monastir are preparing to depart. The diplomats have changed their plans and intend to proceed to Scutari, Albania, instead of to Monastir.

**BRITISH PATROL DEFEATS
ENEMY AT DARDANELLES**
LONDON, Nov. 15.—An official communication from Constantinople is forwarded from Amsterdam by the Central News follows:

"At the Dardanelles there is the usual artillery bombardment together with fighting by the use of bombs. In the Caucasus, one of our patrols surprised a hostile patrol of 100 men in the region of Mito. The hostile patrol was defeated losing 50 killed or wounded."

**ACID BURNING KING IS
FIGHTING IN TRENCHES**
SALONIKI via Paris, Nov. 15.—Old Serbia and New Serbia is in a precarious position in the opinion of M. Jovanovitch, secretary of the Serbian legation in Greece. M. Jovanovitch arrived here today from Mitrovica, western Serbia, having come by way of Albania.

The secretary asserted the Serbians at Mitrovica could not hold out much longer and that the only hope was that the Serbian forces concentrated at Mitrovica would prove to be strong enough to take the offensive and advance through Tetovo toward Monastir. He said he feared the legation staffs which were preparing to

leave Mitrovica for Monastir some time ago would find that the Bulgarians had occupied Monastir.

"The morale of the Serbians is splendid," he continued. "Half-trained recruits march to battle slinging like veterans. Their aged King Peter is fighting in the trenches, clad in the uniform of a private. He seeks death saying, 'When I am killed, you can do as you please.'"

"Famine and misery prevail. There is no bread at Mitrovica. The people are reduced to eating bark."

**GORIZIA BOMBARDMENT
CONTINUES FOR WEEKS**
VIENNA, via London, Nov. 15.—The bombardment of Gorizia, which began October 18 and has lasted ever since, continues with varying intensity. An official telegram from the front describing it says:

"On several days more than 100 projectiles of all calibers but especially heavy shells fell on the town. The bombardments usually begin early in the morning, reaching their climax between 3 and 4 o'clock in the afternoon and relaxing toward evening."

Censor Suppresses War Play.
LONDON, Nov. 15.—The censor has suppressed the new dramatic play, "O'Flaherty, V. C.," announced for production at the Abbey Theatre in Dublin. The play is a skit on recruiting.

25 Sailors Saved.
CANEA, Crete, via Paris, Nov. 15.—Two boats from the Norwegian steamer Wacousta, which was sunk by a submarine, arrived today at Suda Bay on the western coast of Crete with the captain and 25 sailors.

BOARD TO MEET

Health Authorities Propose to Hold a Session Soon.

The Connellsville Board of Health will hold another meeting soon, it was announced today. The board will then have established a unique record of meeting but three a year. So far this year the only time the members have gotten together was in April when the annual reorganization was held.

Notwithstanding this lack of meetings, the business of the board has not been neglected. President Dr. C. W. Pitt, Secretary A. G. Hilder and Health Officer George Hartzel constitute a sort of tribunal which decides the momentous matters which otherwise might be brought up before the body as a whole. Health Officer Hartzel states that the city is in good sanitary condition. He attributes it to the fact that hundreds of sewer connections have been made and also to the fact that much new sewerage has been done.

Contagious diseases are few at this time, the records show.

PREPARE FOR CONGRESS

Ways and Means Committee Will Get Together November 20.

By Associated Press.

WASHINGTON, Nov. 15.—Democratic members of the Ways and Means Committee will meet here November 20 to take up the organization of the new House of Representatives. The committee will have its recommendations, including the chairmanship of the Ways and Means Committee, plans to come here several days before the meeting.

WORLD WIDE VAGRANTS

Suggestion That Tramps Be Sent to Stomach.

Constable R. Butler, who used to be chief of police, suggests a way to deal with the city of the many vagrants and undesirable characters who may be responsible for the many recent burglaries. Several years ago, he says, all of the prisoners committed to jail were made to work in the stone pile. Vagrants could be put to work in the stone pile. It is reported that the county is to start up its stone quarry at the county home, at which a certain class of prisoners will be employed.

LOSES A LEG.

Former High School Player Is Hurt Over in Mine.

Thomas Whalen of Greentree, a former player of Lehigh Valley No. 1, suffered the loss of a leg Sunday when he was run over by a wagon while at work at the Greentree mines.

Mr. Whalen is a son of Mr. and Mrs. John Whalen of Lehigh Valley and 27 years old. He is well known in Connellsville, having at one time played on the Connellsville high school football team.

SEEK TONY CROW.

Police Believe He Knows Something About Porter Shooting.

The police are seeking for Tony Crow, "a negro who speaks Italian," who they believe knows something about the shooting of Thomas Porter in the Baltimore & Ohio yards on Saturday afternoon.

The condition of Porter was just about the same. An operation to remove the bullet was performed this morning.

HUNTER IS SHOT
Gets Lost in Leg While Seeking Game Near Smithfield.

J. G. Sandusky, a railway mail clerk of Wilkesburg, was accidentally shot in the leg by his 12-year-old brother-in-law, Benjamin Manning, near Smithfield on Saturday evening. The large bone in the leg was broken and many of the shot lodged in the flesh.

Mr. Sandusky was visiting at the home of his father-in-law, H. P. Manning, of Anderson's Creek. He was taking young Benjamin with him to start out to the woods to look for game. The boy was in the rear with the gun pointed to shoot. In some manner his finger pressed the trigger and the shot caught Mr. Sandusky in the right leg several inches below the knee.

WATCH IS RETAINED.

Stolen Timepiece Is Sent Through Mail; Money Still Missing.

Paul Porter, the high school football player whose watch was taken from the dressing room some time ago, has recovered the timepiece. Some person mailed the watch, a valuable one, to Porter's home.

The money which was taken from Porter's pockets was not returned with the watch.

Lutrope Loses.
The Lutrope high school football team, which Connellsville will oppose next Saturday, lost a game to Windber High Saturday, 25-21.

NO COAL FOR SOUTH

Pittsburgh District Mines Are Selling Their Output at Home.

PITTSBURGH, Nov. 15.—For the first time in many years a shipping stage has appeared in the Ohio river and no coal has been sent to southern markets. At the general offices of the Monongahela River Consolidated Coal & Coke Company, the principal shipping interest, it was said that operations in the mills of the Pittsburgh district were so heavy that the coal piled in river mines was being used at home.

It was thought that a few small tons might be started south tomorrow but even this was uncertain.

BOOST FOR JOYCE

Passengers Say Tommy Is Most Polite Conductor on B. & O.

The Baltimore & Ohio has many number of courteous and pleasant trainmen, but passengers say that there is no one who has the edge on all the others. He is Tommy Joyce, conductor on No. 15 between Cumberland and Pittsburgh. Mr. Joyce is full of business and on his job every minute, but as he passes through the car collecting tickets and mileage, he finds time to say "Thank you," to all passengers.

This is so unusual that patrons of the road are beginning to comment about it. Mr. Joyce, however, doesn't seem to think it is anything unusual. It is perfectly natural for him to express his thanks as he receives the passengers' transportation.

For a long time Conductor Jack Dull of the Indian Creek Valley Limited has been singled out as a model of gentility. Mr. Dull, however, continues to be the only conductor in captivity who invites his passengers to "Go back and look at me" when they alight at Indian Creek.

**FRIGID SPELL IS
AFTERMATH OF A
WONDERFUL FALL****Tumble of Mercury Indicates
an End of Wonderful
Weather.****HITS LOWEST MARK OF SEASON**

Temperature of 27 Degrees Is Recorded and a Cold Wind Puts a Tang to the Air; Old So's Efforts to Warm Things Up Are Voted a Failure.

After the most remarkable autumn since 1875, according to the weather prophet, a blast of winter swept down upon the coke region as an aftermath of Sunday's rain. During the night mercury dropped to 27 degrees, the lowest mark of the season, and as the decline of the temperature was accompanied by a stiff breeze, the change in weather could hardly be called unheralded.

There is an indication that while summer has lingered in the lap of autumn for these many long weeks, Old Sores and his accomplices have conspired to mount the throne—with the least possible delay. Last night was of the variety that makes the coal man chafe with fustian. The thermometer was in the office awaiting a further drop in mercury before getting his assistant on the job chasing boys.

The turn in the weather—the "break," as the sporting editor would write it—came last week. Last Thursday, for instance, saw the mercury mount as high as 71 and not get below 52. Friday it tumbled, while Saturday was clear and cooler than it had been. Sunday it rained all day, the downpour being their pronounced in the evening. This rain was followed by the drop in temperature, for yesterday was raw and cold. The wind which had been brisk during the day became almost violent at night. The result of these atmospheric gymnastics has been a breath of genuine winter.

It will not be surprising if there is some rough weather from now on, but one can never tell. There was some snow during yesterday's rain, but there has not yet been a real fall of the "beautiful." Automobiles have been the principal beneficiaries of the mild weather. Most of them are redlined to anticipate the end of a remarkable season. On the part of the automobile fraternity this is the beginning of an epidemic of driving radiators and other precautionary measures against Jack Frost.

WILL IS PROBATED

That of Mrs. Sarah Darby Includes Specific Bequests.

Special to The Courier.

UNIONTOWN, Nov. 15.—The will of Sarah Darby, who died at her home here November 7, was probated today, disposing of an estate valued at \$5,700. To Fort Necessity Lodge, No. 254, Independent Order of Odd Fellows, is left \$500 to be held in trust by it and the interest used annually for keeping up graves of the deceased and her relatives in the family lot.

To the First Methodist Episcopal Church and to the Third Presbyterian Church of Uniontown \$100 each is bequeathed. To the directors of the Young Men's Christian Association \$200 is left to be used in the erection of a building.

Specific bequests are made as follows: Phoebe Dunn, \$500; Walter Howie, \$500; Mrs. J. D. Boyd, \$300; Mrs. J. W. Dawson, \$500; Charles Hunt, nephew, \$200; Mrs. Joseph Newcomer, niece, \$500.

The large picture of Mrs. Darby's late husband is left to Emma Foster; the volume of John B. Gough's works to J. W. Dawson, and the large picture and the volume of "The Life of Washington" to Phoebe Dunn.

The residuary estate after paying the specific bequests is to be divided in accordance with the intestate law of the state. William Hunt, a broker, and J. W. Dawson are named as executors. The will was made October 26, 1911.

SIDEWALKS BLOCKED
Bricks for Repairing Pittsburg Street Take up Much Space.

Bricks for the repaving of Pittsburg street have been piled three deep along both sides of that thoroughfare from Main street to Crawford avenue. The space for walking purposes is not wide enough for three people to walk abreast. Paths through which delivery wagons from stores may be loaded have been provided, however.

On the east side of Pittsburg street between Fairview and Main there are several cellar doors. When these are opened, which happens very often, the sidewalks are completely blocked and pedestrians are compelled to turn out into the street. There is also danger of persons falling into these yawning chasms.

IS SENT TO JAIL.

Alderman Is Severe With a Vagrant From Uniontown.

Six prisoners were given hearings at police court this morning by Alderman W. D. Colburn. The alderman handed out a heavy sentence to Henry Austin of Uniontown, committing him to spend ten days in jail in his own home town.

Austin had been loitering around the city and begging of people on the streets.

Three other drunks were given 48 hours and two were discharged. One drunk left a forfeit of \$4.

ENTERS A HOME.

Burglar Gets in Crowley Home, But Makes Quick Getaway.

Another attempt was made to enter a home on the West Side last evening when a thief opened the back door of the home of Matthew Crowley and went into the kitchen. He saw Mrs. John Crowley sitting in the next room with a baby on her lap, and ran out. The thief walked into the kitchen and stole a clock.

Patrolman L. A. Shumaker was called and he went to the house which is on Eighth street, West Side. No trace of the thief could be found.

Leroy Ritenour.****ACCUSED OF STARTING BLAZE**

Discovery of Half-Burned Envelope Beneath Couch Leads to Arrest of Prisoner; Lives of Ritenour Family Are Endangered by Midnight Fire.

After a hearing before Justice T. C. Phelan at South Connellsville this morning, James Enos was committed to jail to await trial on a charge of felonious arson. Leroy Ritenour, who lives on Heldmore road, was the prosecutor.

It was charged that Enos built a fire under a couch at the Ritenour home early in the month. A half burned envelope which was found near where the fire originated after the flames had been extinguished, placed suspicion on Enos. He was arrested by Constable Norval Morgan yesterday after a search of almost two weeks. Evidence was so strong against him that he was committed to jail to await trial.

Fire was discovered at the Ritenour home, owned by Mrs. Lydia Trump, on Heldmore road, early on the morning of November 4. The family was aroused by smoke issuing from the lower room and a blaze was found under the davenport. Assisted by neighbors, members of the household carried out the blazing mass of paper and rags and little damage was done. An investigation of the charred mass brought to light a quilt saturated with coal oil, some bottles and other flammable substances, Mrs. Ritenour's coat, under which were some partly burned envelopes and other paper. One of those was addressed to James Enos. This and other circumstances caused suspicion to rest upon Enos, his wife, who is a sister of Mr. Ritenour, was in the house at the time of the fire. It is charged that he had threatened to burn her up, and authorities believe he took this opportunity to carry out his threat. The house in which they lived in Normalville was destroyed by fire early in August.

The evidence was deemed strong enough to hold Enos for court trial. Arson is a charge not bailable by a justice so the prisoner was committed to jail forthwith.

ENROLLMENT GOES UP

Night School Class Now Numbers 110; Teacher Added.

Enrollment at night school last night jumped from 96 to 140, making it necessary to call in another teacher. Miss Margaret Mayo, a member of the high school faculty, now assisting W. H. Seawright, F. W. Black, Miss Irene Crawford and Miss Blaise Welke.

The majority of the students are taking commercial courses, though there are many doing commercial work and some few former high school students reviewing their advanced work.

The school has not progressed far enough yet for the teachers to determine those who mean business and those who do not. Usually they find that about half of them attend regularly and do good work while the other half is a sort of "flaking" element attending irregularly and not doing very good work.

LOCAL MOOSE TO LAUNCH CAMPAIGN FOR 1,000 MEMBERS

Organizer C. J. Loomis Calling Here After Bousting Vanderbilt Lodge.

PHENOMENAL GROWTH OF ORDER

Since Reorganization in 1908 It Has Been Increasing in Numbers With Such Rapidity That It Now Has Over 100,000 Men on the Rolls.

C. J. LOOMIS.

A membership campaign that was successful beyond the expectations of the most optimistic was closed by the Vanderbilt Lodge of Moose with an initiation and social session on Saturday night. The charter which was opened while the campaign was on has been closed again and the Vanderbilt Lodge now compares favorably in size and influence with any of the other lodges in this section.

C. J. Loomis, organizer for the Moose, who conducted the Vanderbilt campaign will now devote his energies to boosting the membership of the Connellsville lodge. The local lodge has set its mark at 1,000 members and all efforts will be striven to reach it.

The Grand Order of Moose's has been phenomenal. It grew from a lodge of 28 members organized in 1894 by Dr. John Henry Wilson at Louisville, Ky. In the years 15 lodges were formed with a total membership of about 15,000. The pulse of 1902 hit the Moose hard and for 13 years the order steadily decreased until only three lodges with a membership of 218 remained. In 1910, however, these were reorganized by James J. Davis and its growth has been sensational ever since. Today there are 1,000 lodges with a total of 100,000 members, with lodges in Canada and as far north as Nome, Alaska, which has 15 lodges. There are two in Panama, one in Honolulu, five in the entire Hawaiian Islands, and several in South Africa, Germany and France.

The meeting at Vanderbilt Saturday night was featured by an address upon Moosehood by Mr. Loomis. He outlined the fraternalism which is responsible for the success of the order. Purity, aid and progress are its watchwords, he declared—a good Moose is a better husband, father, son and brother. Moosehood is noted for its clarity and there are many striking examples of how it has aided the sick, cared for the dying and rescued the suffering.

Thin Folks Who Would Increase Weight

Simple Directions Easy to Follow.

Thin men and women—that is, healthy, billowing you are just what you need. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of eating. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation are easily out of gear and need reconstruction.

If every way you've tried to put on weight has failed try these simple directions. Cut out everything but the meals you are eating now and eat with

every one of those a single Sargol tablet. In two weeks note your weight. Sargol does not itself make fat but helps the digestive organs burn the fat, sugars and starches of what you have eaten, into rich, ripe fat producing nourishment for the tissues and blood—prepare it in an easily assimilated form which the blood can readily accept. A great deal of this nourishment now passes from this body as waste. Sargol is designed to stop the waste and make the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is non-injurious, pleasant, efficient and inexpensive. Leading druggists are authorized to sell it in large boxes—forty tablets in a package—on a guarantee of weight increase or money back—Adv.

TRY THIS IF HAIR STARTS FALLING

Some Good Advice For Those Threatened With Baldness.

At this season of the year many people find their hair coming out at an alarming rate and often fear baldness. This may very easily be the ultimate result if proper scalp treatment is not taken at once. All excessive loss of hair can be almost immediately stopped by the use twice daily of a little Parlanin Sage which invigorates and nourish the slowly dying hair roots into a renewal of healthy normal action. New hair quickly grows on the thin spots, old hair stops falling and the difference is apparent in a few days by the very look of the hair itself taking on a new life, luster and beauty. Parlanin Sage can be obtained from A. S. Clark or any good druggist. It is not expensive.—Adv.

Girls in Bad Health. Hundreds of girls go to work day after day, afflicted with some ailment peculiar to their sex, declining and lost weight after the other, working always with one eye on the clock and wishing for closing time to come. Every such girl should try on today's "Pinkettes" Vegetable Compound to restore her to a normal healthy condition, then work will be a pleasure. For forty years this famous root and herb medicine has been successfully successful in restoring the health of women. Why don't you try it?—Adv.

HARRISBURG MAN IS NOW HAPPY

L. E. Beckwith Says Wonderful Remedy Gave Him Great Help.

L. E. Beckwith of Harrisburg, Penn., was a victim of disorders of the stomach and intestinal tract. He tried treatment after treatment. Nothing gave him relief.

Then one day he discovered Mayr's Wonderful Remedy—and soon was happy.

Mr. Beckwith wrote to Geo. H. Mayr, the maker of the remedy and for twenty years the leading druggist of Chicago.

"I believe that Mayr's Wonderful Remedy is the greatest stomach remedy on earth. One dose would convince any one who is troubled with his stomach of its wonderful merits. It removed some of the most awful looking stuff from my stomach. I have taken other remedies, but they never helped me."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

Dreary days made cheery!

When the long and depressing rains and rawness set in, the confinement to the home may easily become unbearable—even dangerous—if the rooms, halls and bays are not constantly flooded with the soft, genial warmth of radiator heating. Dampness, drafts, cold floors and fitful room temperatures are a menace, particularly in sloppy weather when children and old folks cannot throw off the hurtful effects of indoor inactivity. You can, on sodden or zero days, make an invigorating June-day climate in your home—day and night—absolutely guaranteed with an outfit of

AMERICAN & IDEAL RADIATORS & BOILERS

of heating in your home, since iron prices now rule so reasonable and IDEAL Boilers and AMERICAN Radiators can be so quickly and simply put into cottages, stores, churches, and other structures already built, in town or country.

No need to discard old heating devices until ready to start fire in the IDEAL Boiler—quickly put in, in the "dead of winter." IDEAL Boilers and AMERICAN Radiators are a substantial investment, they will outlast the building. Their purchase will increase the sales and rental value of the building and they will soon repay their cost in savings in fuel, labor, repairs, and in the lessened house-cleaning and wear on carpets and furnishings. Write today for valuable book of heating facts, "Ideal Heating Investments." Six months cold weather still ahead!

Learn about this unfailing, stationary Vacuum Cleaner, at \$150. Our ARCO WAND Vacuum Cleaner has been in steady use for over three years, and no failures. It works through an iron suction pipe running to each floor of home—or other building. Keeps all rooms thoroughly cleaned of dirt, dust, cobwebs, moths, insect eggs, which are drawn to sealed dust-bucket in basement or side-room. Lasts, without repairs, as long as the building it cleans. Sold in sizes at \$150 up. Ask for new catalog (free).

Good Night Corns, Good-Boy "Gets-It"

New Plan Corn Remedy That Never Fails. The Simple, Common Sense Way.

You poor corn-limpers, with corn-wrinkles and heart pains! Sit down tonight and put a few drops of "Gets-It," the simplest corn remedy in the world, on your corns. You can apply

"Gets-It" Ends Corn Pains. It's Safe and Safe, too!"

it in just a few seconds, without fuss or trouble. What's the use of applying salves that make toes raw and sore, that make corns swell, bandages that make it misery to walk, tape that sticks, greasy ointment, and other contraptions. Get rid of the corns the easy way, quick, simple, sure, new way. That's common sense. Try "Gets-It" also for warts and bunions. "Gets-It" can't hurt—the corn loosens, and comes right off—clean off.

"Gets-It" is sold at all druggists at 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. Sold in Connellsville and recommended as the world's best corn remedy by A. A. Clarke, Lauchrey Drug Co., Fred H. Harpending and J. C. Moore.

EXECUTIVE HOUSING.

President Wilson will soon have the Congress on his hands and we may expect the usual instructions given under the name of conveying information on the state of the nation. The President's departure in the matter of delivering his message to the legislature is more Democratic in appearance than Democratic in principle. It does not coincide with the ideas of the fathers touching the independence of the three coordinate branches of the government. Abraham Lincoln understood it. In a speech at Pittsburg, in 1861, he said:

"By the Constitution the executive may recommend measures which he may think proper and he may veto those he thinks improper, and it is supposed that he may add to these certain indirect influences to affect the action of Congress. My political education strongly inclines me against a very free use of any of these means by the executive to control the legislation of the country. As a rule I think it better that Congress should originate as well as perfect its measures without external bias."

The same thought applies to state government. It was never intended that the executive should become a sovereign power. In fact, that was just what the Patriots fought against.

A BIG TASK.

The larger secured creditors of J. V. Thompson are not disposed to press their claims to the disadvantage of the unsecured creditors. This is the best news the competition committee of the Fayette county bar association brings back from New York after an absence of a week with the managers of Wall Street.

The second bit of encouragement was a cordial invitation to come back again this week and pursue the matter further.

There is perhaps no reason why the secured creditors should be in a hurry. At least they can afford to wait while their claims are safe and their money is drawing interest. The delay is not costly to them. It is, of course, possible that they may want to invest their money elsewhere, but not probable, since money is reported to be plentiful in New York.

The Fayette County Bar Association committee charged with the duty of planning a reorganization of the affairs of J. V. Thompson, which will primarily fall for the raising of \$100,000,000 to \$200,000,000, have a hard task set to their hands, and if they shall successfully accomplish it they will have to be voted great financiers as well as able lawyers.

The Democratic organs have made the astounding discovery that the result in Massachusetts indicates a sweeping Democratic victory in the country in 1916. Massachusetts elected a Republican Governor to succeed a Democratic Governor. The result is not much consolation to that. Some of the Democratic candidates in the late county election pruned themselves on the fact that they had received a larger Democratic vote than some of the others on the ticket, yet they were defeated by more substantial pluralities. It reminds one of the old adage, "A mile is as good as a mile."

Powder is still going up, every now and then.

J. Leonard Repton entered the service of the Cambria Steel Company as a water boy when he was 11 years of age. He now owns and controls the business for which he is said to have paid \$15,000,000. He was born and reared in Somerset county and was never spoiled by child labor laws. With a 16-year handicap and all its attendant disadvantages, Repton might have lost both ambition and opportunity.

This rain ought to make a turkey rise on the Monongahela river.

"The Mystery of the Skeleton Key," in nine parts and a number of vests, which has been running in Mount Pleasant for some time, has come to an abrupt conclusion because the proprietor was totally neglected in the matter of the receipts.

The Uniontown Standard seeks to convert Captain Craft of dishonesty by quoting the legal terms employed in the proceedings filed against him. Editor O'Donnell read law at one time. He ought to know better. His indictment against Captain Craft is not more weighty than hundreds of others who have fled against Republican candidates and Republican officials since he signed up with the barefoot boys under the banner of The New Freedom.

The winter railroad schedules promise some better B. & O. trains for Conneltsville. The B. & O. was never lacking in ambition.

The enterprising Conneltsville burglar does not seem to pay much attention to the orders of the City Hall to move on. Instead of leaving town they are letting themselves into everybody's houses including that of the Chief of Police. This is not only defying the law, but heaping insult upon it.

The Presbyterian pipe organ seems to be of German descent judging from its name, but there's no discount on its notes.

County Superintendent Carroll has set apart Washington's birthday as "Patrons' Day" in the public schools of Fayette county. George's birthday is shamefully neglected, and he never had any children of his own, so upon the whole it's a happy idea to bring

his memory back to the children on his anniversary.

The railroad crossings out around Conneltsville and Leeburn are in danger of getting the reputation of being death-traps. Drivers of automobiles should drive carefully enough to avoid running over pedestrians walking along the highway and to escape being run over by shifting freight trains. It is only a matter of exercising the first rule of safety always.

The welfare and efficiency meetings at Harrisburg this week are intended to promote public welfare by increasing the public efficiency. Everybody is invited to go and mix in the debate. New ideas will be welcome and those presented should be well discussed.

The woman who holds a Thompson-Conneltsville Coal Company bond for her \$1,000 deposited in the First National Bank of Uniontown has no luck coming. The bond is worth dollar for dollar.

The management of the Baltimore & Ohio announces that it located 134 industries on the line of the railroad during the last fiscal year. The industrial bureau of the B. & O. is doing good work. We regret to say that Conneltsville has not received any benefit from it. Possibly the efforts of the industrial bureau are devoted to locating industries in exclusively B. & O. towns.

Winston Churchill's defense to the charges of maladministration made against him is full and complete. Somebody had to be the goat, however, and Winston seemed to be the popular choice.

Looking Backward

News of the Past Condensed from the Files of The Courier.

FRIDAY, NOVEMBER 20, 1885.

The board of directors of the Conneltsville Gas & Heat Company decide to ask a test well on the property of James McGlothlin in the Association addition.

Inquiry has revealed that the wreck on the Baltimore & Ohio railroad at Uniontown in which 22 persons were injured, was due to a defective frog. Robert Sheppard, resident as patrolman, Conneltsville, contends it can afford to pay but \$40 a month and Mr. Sheppard feels he can do better than this elsewhere. A petition is in circulation asking the appointment of Charles Bishop.

Alva Clark, a Baltimore & Ohio engineer, suffers a painful injury when his arm on the reverse lever slips and the latch pierces his hand through and through.

A new soap works is to be erected on the site of the old Bear soap factory on Conneltsville Run.

Robert Hamilton is suffering from a badly lacerated hand suffered when it came in contact with a revolving saw.

FRIDAY, NOVEMBER 22, 1895.

Unfilled report of the coke trade for the week ending Saturday, November 16, shows a total of 13,427 tons in the region of which 16,056 are active and 1,895 are idle, with an estimated production of 164,280 tons.

Shipments for the week aggregated 16,181 cars, condensed as follows: To Pittsburgh, 2,615 cars; to points west, 5,632 cars; to points east, 1,934 cars.

The coke production and shipments take another spurt. Shipments last week following anything in the history of the coke region.

Plans are drawn up and work is ready to start on a new railroad line from Conneltsville to Uniontown, connecting with the Baltimore & Ohio railroad at Layton. It will be known as the Washington Run railroad and will tap the coal field opened up in that region. The Young will be bridged at Layton.

The annual report of the Baltimore & Ohio railroad shows increased net earnings of \$74,000 over 1894.

When lot buyers at South Conneltsville express their satisfaction with the bond of George J. Humbert, Trustee of J. T. Norton and J. A. Armstrong, who had previously rejected it, express their willingness to allow the majority to rate. The difficulty arises over the kind of mill Mr. Humbert is to erect at South Conneltsville as his part of the agreement with purchasers of lots in that section.

A heated journal on a threshing machine runs hot and causes a fire which consumes an engine, house, barn and a quantity of grain. The consumed property was owned by John F. Ford and David and Cyrus Stoner.

Showering upon the surface of D. Shriver Stewart and his brother, Albert Stewart at Conneltsville, burglars get nothing but three valuable watches.

FRIDAY, NOVEMBER 17, 1905.

Coke production for the week ending Saturday, November 11, aggregated 275,468 tons. Of the 22,353 ovens in the region, 21,621 are active and 1,782 idle. Shipments for the week aggregated 11,501 cars, condensed as follows: To Pittsburgh, 4,123 cars; to points west of Pittsburgh, 8,517 cars; to points east of Conneltsville, 1,561 cars. This is a gain of 299 cars over the previous week.

The members of the 85th Pennsylvania Volunteer Infantry hold their 32d annual campfire here.

Thomas Johns, veteran superintendent of the Meyer works of W. J. Ruders is dead.

The Baltimore & Ohio railroad does not include the Mount Pleasant Accommodation in its full schedule.

The death sentence imposed upon James W. Beall for the murder of Yarnmaster Porter at Nowell station is commuted to life imprisonment.

Miss Marie Louise Marshall of Uniontown becomes the bride of Dr. John J. Singer of Conneltsville.

The coroner's jury holds that the hand powder explosion, which cost the lives of 18, was due to causes unknown.

The century coke plant is sold by J. V. Thompson to C. E. Leonard and J. H. Hillman for \$500,000. Contracts will soon be let for the construction of 200 additional ovens.

STILL TOO HOT FOR COMFORT

The Furnace

By GEORGE FITCH,
Author of "At Good Old Swank."

At this time of the year the furnace begins to come into its own. It is a peculiar rain which makes its hair in the collar of plain people and contributes to the horror of winter by declining to give forth heat in a blizzard because the chimney wasn't maintained inside during the autumn.

The furnace is composed of a large erected boiler surrounded by a sheet of iron. It is operated by a system of pipes and drafts through one way, of course, pay cash and get just as good results. It is connected with the boiler by a pipe which carries the smoke from the boiler to the up-stairs, and it is connected with the chimney by a pipe which carries the smoke from the boiler to the chimney.

When a furnace is working vigorously a stream of warm air is sent through the house in some form of heat. Thus the furnace is the warmest friend, but until some means of locating the living room directly ex. the house is devised it will not be doing its full duty toward humanity.

Declines to give heat because the chimney was not maintained during the autumn.

That a coat and vest will be entirely superfluous, even on the front porch. Truly only the furnace will keep the house warm by means of pipes and registers, but it sufficiently deters and encourages, it will eventually locate the furnace and make everything lovely and warm with the fire department arrive.

A furnace can be readily operated during the winter by one man if he makes arrangements to have his meals brought out to him. By shoveling your stove, your chimney, your furnace, your summer vacation, and your winter's theatre tickets into your furnace you can keep it burning all winter except on zero nights. A furnace is quite handy and by wrapping an old carpet around it on very cold days you can keep it from becoming dangerously chilled.

Some people claim that they can run a furnace all winter on \$24 worth of coal, and by putting in two shovels full in the morning they can maintain a level heat until evening. Do not worry about these statements, however. Go ahead and discount them with claims of your own. This is a free country and everybody can lie in it.

FIRST LECTURE NUMBER.

M. E. Program Will Begin With Concert on November 26.

KIDNEY DISORDERS QUICKLY RELIEVED

Leading druggists everywhere are establishing new records in the sale of medicine. Believing that no medicine ought to be paid for unless it does the user some good they have adopted the plan of selling Solvay, the standard kidney remedy, under a positive guarantee of quick relief from all kidney or bladder misery, or money back without a question. This speaks eloquently for the virtues of the remedy and already has created a wide-spread demand for it here in Conneltsville. Hundreds of people in every walk of life have been relieved of the agonies attendant on weak, disordered or clogged-up kidneys and bladder by this remarkable remedy. It is not just merely a kidney treatment. It is a medicine that aims to put the entire, pain-racked body into normal condition and give vigorous health after the many painful diseases caused directly or indirectly by weak kidneys. A chance for this better will be seen after the first few doses of Solvay and its continued use should soon tone up the entire system of imperfectly working organs and give the desire to live and enjoy life to its fullest.

Solvay is considered by many the best kidney remedy on the market today because it aims to cure by striking directly at the cause of all the trouble. The many pains and aches caused by imperfectly working kidneys cannot be permanently cured unless the cause is removed.

Solvay is sold under a positive guarantee to refund the money if it does not cure. This is the strongest proof that can be offered as to the merit of the medicine. You are clearing yourself out of your life if you don't give Solvay a chance. Get it today from A. A. Clarke or any leading druggist in this vicinity.—Adv.

King Strang's Rise and Fall

A kingdom was once set up on Beaver Island, in northern Lake Michigan, and flourished for some years. James Lewis Strang, a prominent Mormon, had quarreled with the leaders of his church and in 1846 withdrew with a few followers to that island. Other Mormons joined the colony from time to time, and by the winter of 1849 they were sufficiently numerous to threaten control of the island. On July 8, 1850, Strang was crowned king with elaborate ceremonies. There was much controversy between the Mormons and the other inhabitants of the island, mostly Mormons. While on a visit to Detroit President Fillmore heard of this little kingdom within the domain of the United States. He sent an armed vessel to Beaver Island, and King Strang was captured and tried for treason. He conducted his own defense and made such an eloquent plea that he was acquitted. In 1850 he was assassinated, and his kingdom fell with him.

Washing Velveteen.
 White velveteen and most colored ones, too, will wash beautifully. Just knead and squeeze quickly in a warm—not hot—lather, rinse in tepid, then cold water. Wring carefully and shake well. While still damp iron on the wrong side on a thick felt or blanket covered with a clean sheet.

The Oldest Sequel.

The oldest sequel is over 3,150 years of age. A family of five could have picked under this tree when the Greeks were building their wooden horse under the walls of Troy and Pharaoh and his army were being engulfed in the waters of the Red Sea. It has been the contemporary of every famous man and event since the foggy dawn of history. While innumerable multitudes of men and women frosted their way through the drearily important wink or two of time that they called life this tree comforted itself with getting a little thicker in the trunk and wreathing its top in more majestic foliage. Nowadays people who have made their piles, possibly in the lumber business, often motor down to look at it, and their wives gaze up among its awful branches and say, "Mr. how pretty!"—San Francisco Bulletin.

Buying Army Discharges.

A discharge may be purchased by a soldier who has served at least one year in the army if he is stationed within the confines of the United States. If he is serving in Alaska or anywhere outside the continental limits of the United States or if his organization has been ordered to take station outside the continental limits he cannot obtain a discharge.
 The price at which a soldier may purchase his discharge, as taken from general orders No. 4, war department, Washington, D. C., Jan. 8, 1904, is as follows: "After one year's service, \$120; two years, \$140; three years, \$90; four years, \$85; five years, \$90; six years, \$85; seven years, \$80; eight years, \$55; nine years, \$40; ten years, \$35; eleven years, \$30."—Philadelphia Press.

The Child at the Window.

Officer that, but we may tell a child's story from the time the child peeks at the window on a rainy day. Whatever the years make a woman, she is born domesticated. The little girl looks out of the window chiefly because something is happening outside, not because she wishes something would happen, and returns contentedly to her indoor interests. But, however the years thin a man's blood, he is born an open air adventurer. The little boy fires of carpet play and remains gazing at the rain and gray skies, wearying for the sun to shine.—J. J. Bell.

Hogge's Horse.

Hogge's Horse, at Duxford, Sussex, England, in the center of the old town district, was formerly the residence of Ralph Hogge, an ironmaster. He is celebrated as having been the first to cast a cannon in one piece. This occurred in 1543.

Queer Death Customs.

The Egyptians, believing that dead people needed the things they used when alive, sometimes killed the favorite slave and horse of the dead man. In India, for the same reason, widows were buried with the corpses of their husbands.

Soup Without a Spoon.

Soup without a spoon seems even harder to negotiate than meat without a fork, and we can sympathize with the complaint recorded in the diary of Felix Platter, a young Swiss, who went to Montpellier in 1552 in order to study medicine. He lodged in the house of his professor, Ortelius, one of the greatest doctors of his time, and yet, writes Platter, "we were compelled to eat our stew in the usual French fashion—that is to say, picking the meat out with our fingers and then drinking the broth. In vain we begged our hostess to let us have spoons, but not a single one was to be found in the house, the only implement on the table being a large knife fastened with an iron chain. No one here seems to have ever heard of spoons, which we at home find so useful." Montaigne was astonished when he visited Switzerland in 1580 to find that "at all meals they put on the table as many spoons as there are people present."—Westminster Gazette.

HAD ECZEMA SEVEN YEARS ON HIP

Also Ringworm on Hand. Could Not Sleep at Night. Itching and Burning. Cuticura Soap and Ointment Healed Hip Also Ringworm.

North Bend, Pa.—"I had the eczema for seven years on a ringworm on my hand. The eczema was a sort of rash and itched and burned when I scratched. It made an eruption and the itching irritated the breaking out on my hip. I could not sleep at night and when I would get up I would suffer awfully with the itching and burning. The ringworm was in circles on my hand and scaly and if I used much soap or had my hands in water I would get so sore the scales would come open and bleed.
 "Then I used Cuticura Soap and Ointment. I washed my hand in hot water with the use of the Cuticura Soap then dried my hand good and put the Cuticura Ointment on. I also washed my hip with the Cuticura Soap and warm water, then I took a thin cloth, put the Cuticura Ointment on it and laid it on my hip. Cuticura Soap and Ointment healed my hip also the ringworm on my hand." (Signed) Mrs. A. Elder, October 27, 1914.

At the Theatres.

A SCENE FROM "VANITY FAIR"

SOISSON THEATRE.

"JUST JIM"—The Broadway Universal present the famous actor, Harry D. Carey, today at the Soisson Theatre in the first dramatic success, "Just Jim." From a spectacular viewpoint it is one of the biggest pictures we can hope to see during the current season. The remarkable verities of the place, which slip off the roadway and goes tumbling down the side of a cliff into a stream at the bottom, is as full of realism as one of those topographical day gone by. The destruction of the schooner, with its emerald Chateau aboard, by the revenue cutter, is one of those scenes which makes your breath come fast. That's what Peter Pepper, the famous screen critic, has to say of "Just Jim," that sterling five-reel drama, which has just been released by the Universal Film Company. It is one of the greatest and most touching dramas seen on the screen this year. It has the good old punch in it that makes the kill in the gallery lean forward and pinch his lip nervously. There's a lesson in it too, Harry D. Carey, the hero of the old melodramatic days, is seen in the stellar role and he does some of the finest acting of his career in this great picture. It will be seen at the Soisson Theatre today. Also "The Superior Claim" is a three reel Western drama that tells a thrilling story of a father's persecution of his own son, and of their final reconciliation in the presence of the girl they both sought in marriage. There is a real desert storm in this production that is the best produced in any moving picture. "A Day at Midland Beach" is a Jokers comedy that is replete with comical situations, and a farce that is hard to beat. Tomorrow, D. W. Griffith presents Dorothy Gish in the four reel Western drama, "The Mountain Rat." It is one of the strongest melodramas of the season.

ARCADE THEATRE.

"VANITY FAIR"—That colossal film masterpiece, "Vanity Fair" with Mrs. Fiske in the role of Becky Sharp, comes to the Arcade Theatre today. This is an Edison production and easily the greatest ever executed by that well known maker of good pictures. Also, it is conspicuous as the first Edison offering on the newly organized Klein-Edison Picture Service program. Needless to say a production of sufficient size to warrant the engagement of Mrs. Fiske is no ordinary film venture. More than four hundred people were employed in many of the big scenes, notably the one which portrays Lady Richemond's ball in France. This scene is in itself elaborate enough to stamp "Vanity Fair" an extraordinary production. The antique curio shops of Manhattan were unaltered for hangings and furniture of the period and the entire mammoth floor of the Edison studio was utilized. In filming the great battle, the Edison producer made no effort to follow the direction of the American novel. The bare outline with the principal characters of the drama are enough to charge seven reels of film with snap and action. It is one of the genuine film masterpieces of the last two years and will undoubtedly prove immensely popular.

"FIGHTING BOB"—In the sunny clime of a little republic, supposed to be located somewhere in South America, affording all the color in picturesqueness necessary to make a picture which will appeal to the eye, the scenes are laid in the screen drama entitled, "Fighting Bob," just released by the R. A. Holt Company, on the Metro Program, and which will be seen at the Arcade Theatre Wednesday. "Fighting Bob" was made from the play of the same name by Edwin E. Ross, who has many plays to his credit which have been acted by leading stars on the regular dramatic stage. "The Rosary," "Fighting Bob," "Janice Meredith" and "David Harum" are a few of his best known works. Orrin Johnson was chosen for the title role in "Fighting Bob" and he has given a good account of himself in the dramatic arena with which this screen drama abounds. "Fighting Bob" has all the qualities that entitle it to be called a gripping play with a strong love interest.

GLOBE THEATRE.

"DARLING DANDY"—Both Stonehouse, a screen idol, is appearing today at the Globe in one of her latest and most successful productions, "Darling Dandy," an Impresario drama in three acts. "A Keyboard Strategy," a Vitagraph comedy, presenting Lilian Walker and Constance Talmage, Helen Holmes in "A Matter of Seconds," during railroad drama, and "Advertising Did It," a Lubin feature with Vinnie Thurn in the lead role, completes the bill. Tomorrow, "Key to Possession," a Kalem drama in two acts, will be presented in addition to several other interesting attractions.

Exhibit of Thanksgiving Linens

LIKE FINE SILVERWARE OR FURNITURE, Linens are a part of the household valuables—or should be. They are something to be chosen judiciously. So, as is our custom, we have arranged an Impressive Exhibit of Quality Linens for Thanksgiving and Christmas service. It will continue the entire week, beginning November 15th. With linen prices advancing rapidly, this display offers you complete assortments at 20 to 33% per cent. under present market prices. The better linens you buy the more satisfying they are—naturally, for they are always less expensive in the long run. We suggest to our customers that they purchase an entire year's supply during this exhibit, and save 25c to 50c a yard on goods of finest quality.

Plain and Fancy Huck Towels

—PLAIN HUCK TOWELS with fancy borders. Guest Towels, size 14x19, 10c.

—HUCK TOWELS, heavy weight with striped borders. Union Linen, size 17 1/2 x 37, 19c.

—ALL LINEN HUCK TOWELS, with wide fancy border, size 17 1/2 x 37, 25c.

—GUEST TOWELS, full size, of fine linen huck. Also Damask Towels in pretty all-over designs with borders and scalloped ends. Extra values, 50c.

—FINE LINEN HUCK TOWELS, in plain and all-over designs with wide fancy borders. Also Monogrammed and Embroidered styles at 75c and \$1.00.

—EMBROIDERED HUCK TOWELS, of extra fine quality, done in beautiful designs. Monogram styles and scalloped borders, up to \$1.50.
